

Word of the Lord, March 14 2020

Tawhiri Littlejohn, Co-pastor Kaiwaka Revival Church

As I was praying this morning with urgency in my spirit I could feel creation in groaning because of the sins of the nation's.

Romans 8 All Creation is groaning and waiting with eager expectation for the Sons of God to be revealed. The lord said he will raise up his sons to speak to creation to speak to the wind to speak to the Earth.

I saw this huge horde of Darkness coming from the east there were riders on horses but the main Rider was a rider on a black horse, the lord said this is the spirit of death. this spirit was sweeping the nations to strike fear into the hearts of the people this spirit was moving quickly.

Then I saw another Rider with green on his clothing, this Rider was in front of the Warlord spirit of Islam the murderous spirit of Islam. I asked the Lord what is the rider before the murderous spirit? the Lord said that Rider represents The Messengers of Islam, I didn't feel alarmed but was just simply watching what was going on. I then saw these huge chains binding up the messengers of Islam and pulling them down.

The Messengers of Islam were restricted in their movements. the lord then said these are the Watchmen who he has placed over our nation, they were fierce Warriors who were not caught unaware of the battle plans of the enemy, they were in a fierce Warfare pulling down the strongholds.

I then saw these huge Golden Eagles flying over the battle lines, the lord said they represent the prophets seeing and declaring what is coming. I saw huge golden lions at the forefront of this battle, the lord said they represent his Apostles. both the apostles and the prophets we're warring together on the front lines, as I looked closer, they were fighting on the front line of the battle field along with the Watchmen, but I looked far behind and the church wasn't even engaged in this battle, they were preoccupied doing other things.

The apostles and prophets we're battling fearlessly with great strength. I looked closer again and noticed these older prophets and Apostles who had been battling on the front lines for our nation. because they had been battling on the front lines for some time, they were starting to get weary, I even saw some Lions dead on the Battlefield, the lord said these are those who fell short and didn't complete their assignment because of distractions and sin. I saw the vultures eating their bodies and the Lord said these vultures are eating their legacy.

I also saw many of the great apostles and prophets being taken home because they had finished their assignment well. I then looked back and saw many young lions and young prophets running to the battlefield to help the older apostles and prophets. They were running with great enthusiasm but we're not yet fully mature. Because of the urgency of battle, they were running into the battle lines.

Out of these lines there was a small company of great warriors like David standing. These Davids knew why they were born was to fight this in battle. I saw these great Beasts Falling to the ground and in the thick of the battle I saw these young Davids we're right in the thick of the battle and they had great skill. They were specially trained warriors taking out these elite forces. They weren't fighting from fear but with great excitement to be on the battle because this is what they were prepared for.

As these young Davids were taking out a great company of darkness there was an open Heaven above them. There were thousands of angels watching this battle. I asked the Lord why are the angels not moving into this battle, the lord said those angels can only move into battle when the church moves together. The angels were waiting for the church to move so they could move. The Lord said, the Lords army was arising with new strategies and weaponry, the apostles and prophets have been fighting hard and with great boldness and strength but they had been fighting this battle for so long they were using old strategies in a new battle. The Lord said it's not working for He will send in his new strategies with the company of warriors that he's sending out into the battlefield.
